

Accessories

This catalogue is one of a series of PDF documents available from the RecoverToy website.

The range of toy car parts that we provide is growing regularly and is currently over 3,000 items. As a result a single catalogue is too big for download and review. So each of the main categories is available as a separate catalogue.

The website is <http://www.recovertoy.com> and catalogues for all our Toy Car Parts can be downloaded from that site.

Ordering online: Register an account at the website and use the shopping cart to add to your order. Some items may show as out of stock but generally this is only temporary. Payment options are presented at the checkout. The online store is secured with an SSL certificate and provides a secure connection for all transactions. Credit card details are held separately from name and address details ensuring security of your information.

Ordering by Post: Payment in AU\$ is preferred. International orders by mail must include full Credit Card details or cash (please use registered post for cash payments). Please do not use foreign currency cheques or money orders - they are too expensive to convert here.

Back orders: Most parts are available ex stock or within a few weeks. Where items are not expected for an extended period part of your may be shipped. Back-ordered items are shipped as soon as stock is available. Any new orders placed while a back order exists are shipped for free as a part of the back order.

Shipping: All items are shipped with insurance and tracking. We pack using Australia Post standard cartons and padded bags. Within Australia we use Australia Post Registered Mail. For International Shipping we use economy air-mail via Skippy Post.

RecoverToy is located in Croydon an outer-east suburb of Melbourne, Victoria, Australia and supplies die-cast items to hobbyists all over the world.

I can be contacted via email thowden@recovertoy.com or via phone on (+61 or 0) 417 554 287

Post: RecoverToy PO Box 166 Ringwood Vic, 3134 Australia

For any queries please check the Frequently Asked Questions (FAQ) section of the website.
